

Basic Problems

I keep getting logged out when I try to do anything!

This is due to your cookies being old/bad, and can be easily fixed by clearing your browser cookies. If you don't know how to do this, you can find a description [here](#).

It says my password is incorrect!

Follow the link provided to get your screen name and a temporary password emailed to you.

My email address has changed, so I cannot request my login information...

Send us a message via the contact page including your old email address and your new one... We will contact you via email to confirm the change.

When I search in my country or state I don't get any results.

It is possible that your location information is incorrect, first check your profile to make sure this information is correct. Second, if you are not in the US, it's possible that there aren't many members in your country, try a search that isn't so specific.

I cannot send messages.
